

SOCIAL HOUSING APPLICATION

Project Description:

This website is a robust solution based on .Net technology platform. The portal has a different role based user access known as Tenants, Landlord and Real-estate Company (Broker). This entire system was developed as a Repairs and Maintenance module looks after all aspects of repairing tenant's property or areas associated with it. The portal contains a multiple features as following:

Features:

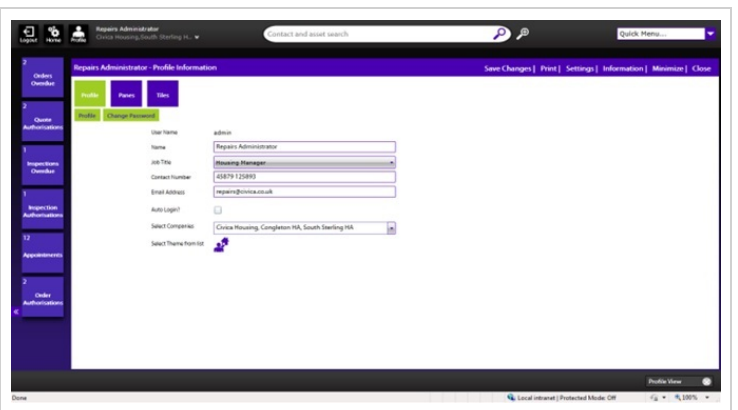

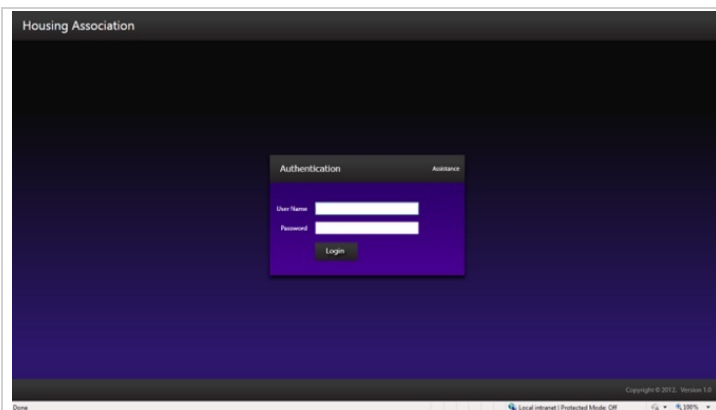

- Feature rich modern user interface that is intuitive to use
- User's profile and contacts
- Contacts and Assets
- Work orders and Inspection details
- Repair requests and history
- Repair Tasks
- Appointments
- Contractors details
- Inspection details
- Contact information database
- Tasks variations, alerts and quotes
- Plan Calendars
- System Security
- Audit Trail
- License information and validation
